## INDICATIONS FOR THE WELL-BEING OF CHILDREN AND FOR A PEACEFUL SCHOOL-FAMILY COLLABORATION

### School & Family

The creation of a good relationship between teachers and parents is essential for a mutual trust which favors the peaceful inclusion of children in school and their harmonious growth. The school relates to families through:

- **Two individual interviews** for medium and big children and **three individual interviews** for primavera and small children, for a targeted exchange of information on the child, to share educational goals and results;
- **Collective meetings** (assemblies).

### School attendance and readmission

- It is necessary to **respect the entry and exit times** to allow the smooth running of school activities.
- It is advisable NOT to bring the child to the community when his health conditions are such as to compromise an active participation in school activities (general malaise, presence of fever, tracheobronchitis, repeated vomiting, diarrhoea, skin rashes of a nature to be diagnosed...). In these conditions the child is also more likely to spread the disease to other children and to all those who are in close contact with him. **Each parent is responsible not only for his own child, but must also be sensitive towards other children, in order to protect the school community.**
- At the beginning of each absence, even if short, it is necessary to notify the school by communicating it via email and/or by telephone by 09.30 am to the following contact details: [scuolareginapacis@gmail.com](mailto:scuolareginapacis@gmail.com) / 0445-855507.  
The child's absences must ALWAYS be justified. The medical certificate is no longer mandatory but we ask parents to be responsible to always rely on the instructions given by their pediatrician regarding the treatment to be administered to the child and the days to stay at home. To return it is necessary to fill in the self-declaration available on our website at the following link: <https://scuolainfanzianovoledo.it/wp-content/uploads/2023/09/autodichiarazione-rientro-dopo-assenza-per-motivi-di-salute.pdf>
- Absences for non-health reasons do not require a readmission certificate, provided that the family has previously informed the teachers.
- **For extra- school time entrances and/or exits**, it is necessary to notify the teachers in advance.

## Medicines

- By law, school staff are **NOT AUTHORIZED** to administer any medicine, apart from life-saving drugs for which a declaration from the pediatrician or specialist is required.

## Birthday Party in School

If you want on your child's birthday you can bring to school:

- **Fruits:** 1 Ananas + 3 other fruits (2 kg for each fruit)
- The invitations for the birthday parties can be delivered to children **ONLY** if addressed to all children in the School.

## Other Rules

- Upon entry, children must always be welcomed by a teacher or school staff;
- It is recommended not to stay inside the school longer than necessary when entering and leaving;
- It is not permitted to stop and play in the school garden after collecting the children;
- Do not bring toys or personal objects as they could break, lose or cause arguments (only little ones can bring a stuffed animal... for bedtime). The School declines all responsibility in the event of loss of valuable objects and any broken toys brought by children;
- Please avoid bringing cocoa butter, sweets or chewing gum;
- Please avoid clothes that are difficult to wear (belts, braces, etc.) and shoes with laces (for small and medium-sized children), as they limit the child's autonomy. We also remind you to have children wear suitable clothing so they can play outdoors, move and experiment freely, without fear of staining or ruining their clothes.

*Thanks for your collaboration*

*Team Regina Pacis*
